

Build Your Music Arduino Lab

Step 1 – Connect Rotary Encoder to Arduino Uno

Rotary Encoder

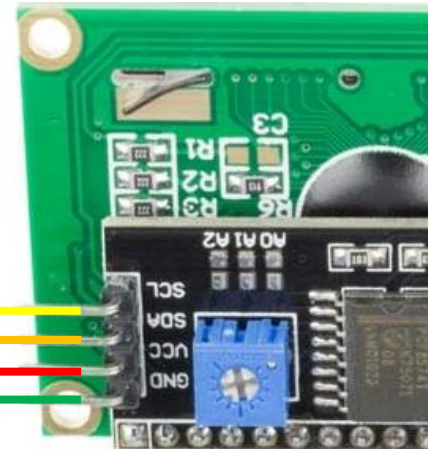

Rotary Encoder Pin	Wire Color	Arduino Pin
CLK	Blue	2
DT	Purple	3
SW	Gray	4
+	White	5
GND	Black	6

Arduino Uno

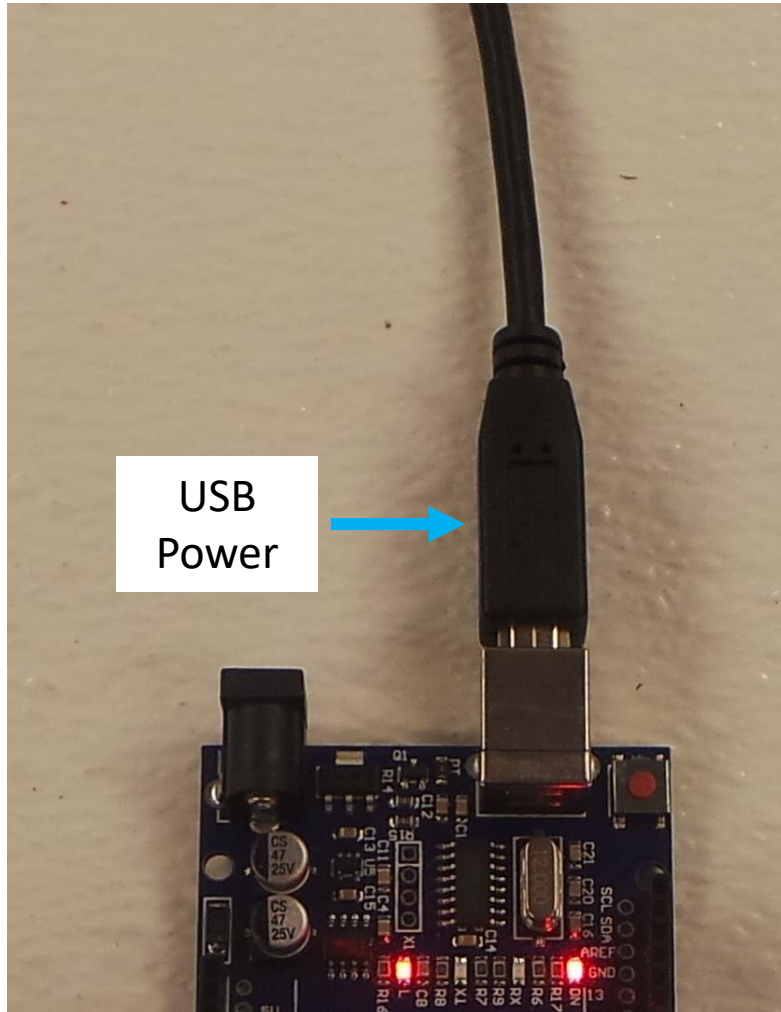

Step 2 – Connect LCD to Arduino Uno

LCD

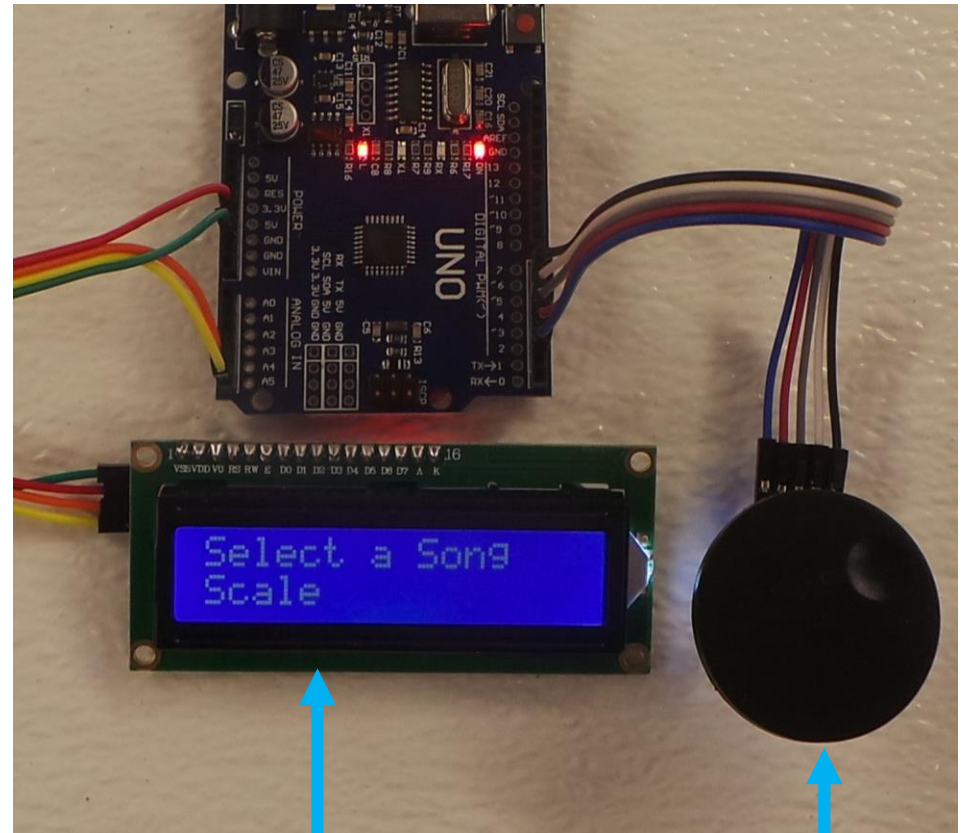

Arduino Pin	Wire Color	LCD Pin
A5	Yellow	SCL
A4	Orange	SDA
5V	Red	VCC
GND	Green	GND

Step 3 – Connect Power to Arduino

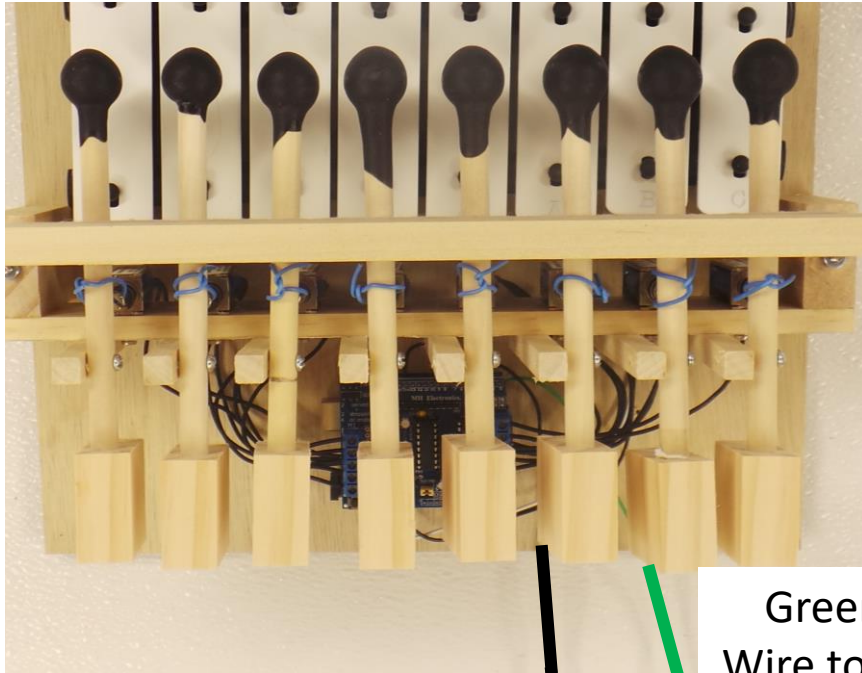

Step 4 – Make Sure all the Connections are Good

Text is shown on
the LCD

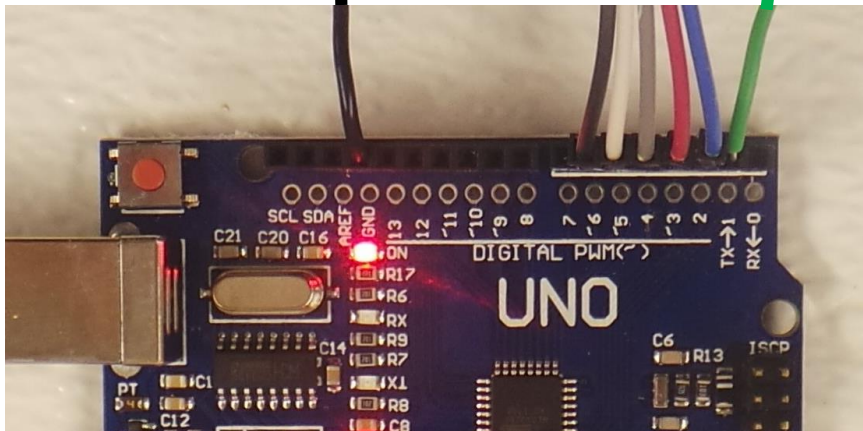

Turn Rotary
Encoder to
Change the Song

Step 5 – Connect to Xylophone

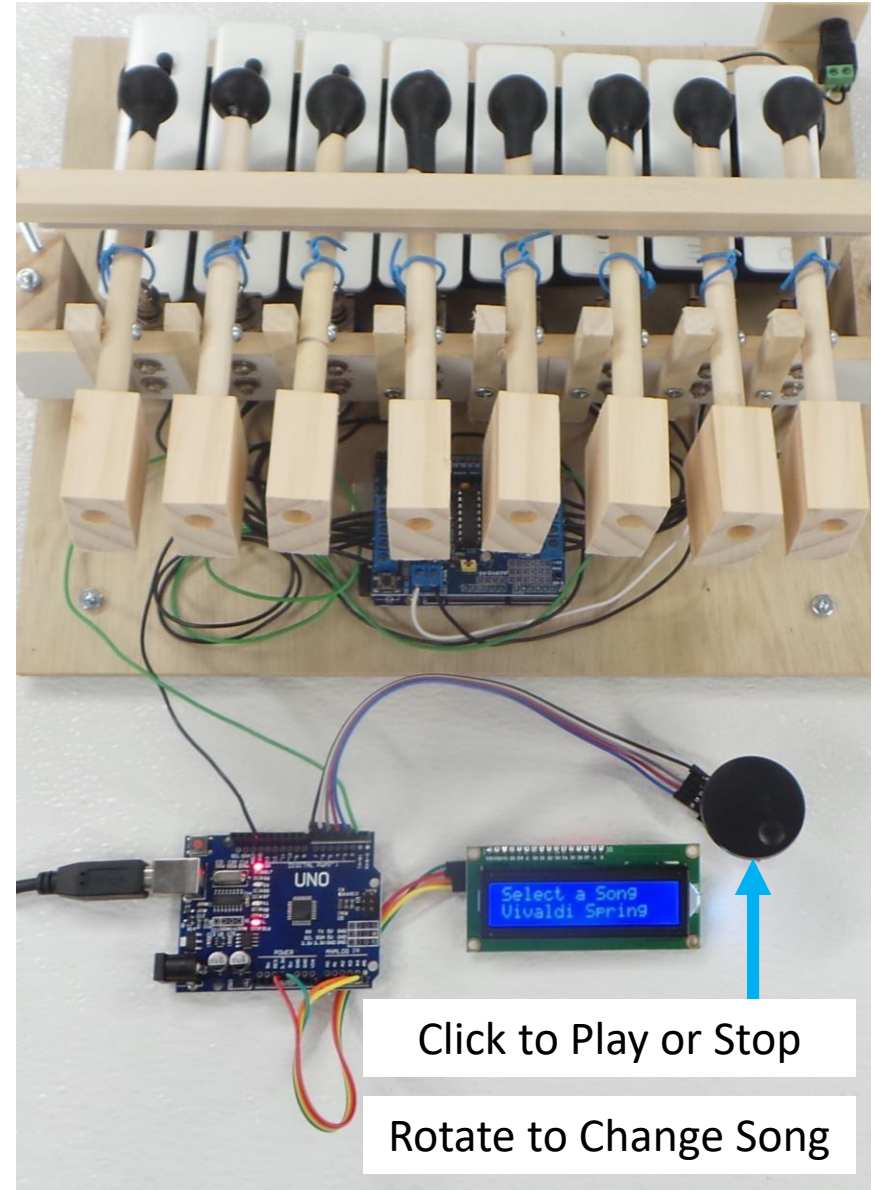

Black Wire
to GND

Green
Wire to TX
(Pin 1)

Step 6 – Play a Song

Click to Play or Stop

Rotate to Change Song
